

## DELEGATE ASSEMBLY

### **What does a delegate do?**

As a delegate, you are a voting member of the association – representing your local school board. You will bring forward the ideas and concerns of your constituents, debate and vote on policies, programs, and resolutions; and elect the NDSBA Board of Directors.

### **How many assembly delegates are there?**

The number of delegates allowed for each school board is determined by the number of teachers in the district:

Teachers	Delegates
0-10	1
11-30	2
31 and over	3

A school board is also granted additional delegates based on student population. A school district with 1,000 – 4,999 students is allowed one additional delegate; a district with 5,000 or more students is allowed two additional delegates.

A maximum of five delegates are allowed per district. To have delegates represented at the Annual Convention, a school district must be current on its dues to NDSBA.

### **How do I become a delegate?**

If you are interested in being a delegate to the 2025 Annual Convention, notify your school business manager, who is responsible for certifying your eligibility as a delegate.
